

ALSTRONG AUCTUS

Grassland Rejuvenator / Overseeder

Rejuvenate and condition your grass with the Alstrong Auctus. It's unique design allows up to 6 operations to be completed in one pass.

- 1** The fully adjustable, individually sprung levelling boards scarify and scratch the surface removing dead material while exposing soil patches for re-seeding.
- 2** The drum repairs poached soil and surface damage.
- 3** The blades fitted to the drum aerate the root zone allowing air and water to penetrate faster encouraging growth.
- 4** Air-seeder applies grass seed/clover in an accurate and even fashion.
- 5** Two rows of fully adjustable harrow tines aid seed to soil contact while stimulating and further conditioning the grass.
- 6** A gang of prismatic roller rings gently press the soil and leave a nice even finish.
